## PROFILE

Hard-working undergraduate studying Computer Science in University of Essex who is fearless of new challenges and always ready for new opportunities. Ambitious person looking for a part-time job to prove his own talent.

## ACHIEVEMENTS

Handball: I have played handball for four years which turned me into an active sportive person. Being a key member of the team and one of the oldest, that gave me leadership and teamwork skills.

## EXPERIENCE

### TEAM LEADER & AMBASSADOR / FORALL PHONES

09/2017 - now

Mostly had the responsibility to manage my team and to maintain its motivation levels on top, had also different team goals every month that needed to be accomplished. The company was a Portuguese start up that sells refurbished phones and the main focus was on building a community and on selling phones by explaining the advantages of our company.

### PROGRAMMING TEACHER / HAPPY CODE

07/2018 – now

The main role was to teach different programming languages to young children but also show how interesting programming could be. This was mainly achieved by doing different projects during holiday weeks using for example Java and Roblox. It was a great opportunity to improve leadership techniques and also to develop my communication and teaching skills.

### TEAM GUIDE / IBERCUP

06/2013 – now

Responsible for helping my team with any type of problem they might have faced during the tournament. Communication skills needed to explain anything useful in a different language. I had also to organise the team's timetable in order to avoid delays to the football matches. Designed the best ways to get to the stadiums by bus, to avoid traffic and save time.

## EDUCATION

### SECONDARY SCHOOL DIPLOMA / 07/2015

Quinta do Marquês (Portuguese Public School)

The final mark average was 15 out of 20 in one of the best public portuguese schools in the country, in which for the final year I had my role as the treasurer of our students association.
